PORTABLE BLEACHERS

## PORTABILITY, FLEXIBILITY AND SAFETY - ALL IN ONE!

The next generation in portable bleacher seating is MAXAM 1™. Designed to be the safest and most comfortable portable bleachers available, MAXAM 1™ Portable Bleachers quickly bring the safety, comfort and durability of large gym bleacher systems to nearly any spot on your facility's campus.

**One person.** MAXAM 1™ Portable Bleachers are designed for quick & easy one-person transport and one-person operation. Hussey's legendary attention to detail means MAXAM 1™ was created with your environment in mind – whether that means fitting through tight doorways and onto elevators, or providing the safest portable bleacher system to own and operate.

**One design.** As the first – and only – closed deck portable bleachers to offer ergonomically contoured polymer seats, MAXAM 1™ delivers unmatched comfort. MAXAM 1™ Portable Bleachers aesthetically match our MAXAM telescopic bleachers for a seamless gymnasium appearance. Easily pump up with our customization options; you can even choose the decking material that works best for you.

**Get the one changing the game.** Take the great quality and durability of MAXAM anywhere you want to go – our tough yet lightweight aluminum frame means you can use MAXAM 1™ virtually anywhere\*. Take your seating from courtside to rink-side, indoor pool to cafeteria, auditorium stage to meeting room with a new level of ease, safety and comfort backed by a best-in-class 5-year manufacturer's warranty.

**One safe solution – anywhere, anytime!** Safe seating is our first priority as well as yours. MAXAM 1™ sets a new standard for tip & roll bleachers by featuring a closed deck design to eliminate fore to aft openings and actively prevent foot slip-through injuries. Choose from classic wood decking or slip-resistant Polydeck in several colors. The gas strut controlled descent and lift assistance prevents back injuries and limit liability.

## ACCESSIBILITY

**One simple move.** Designed to fit through a door as narrow as 32" (813mm) wide, MAXAM 1's™ multi-directional casters make it easy to get your seating to where it's needed. You're not stuck courtside anymore – take MAXAM 1™ Portable Bleachers all over campus. Since it will even fit onto common freight elevators or large capacity passenger elevators, you can easily move units from floor to floor.

## COMFORT

**One comfortable solution.** Comfortable portable bleachers are no longer a dream with MAXAM 1's™ CourtSide™ polymer seat modules. Incorporating a unique fore to aft contoured seat and a gradual "waterfall" curve on the forward edge, they reduce pressure to the thighs regardless of leg position. Seat spacers with or without cup holders are also available.

## CUSTOMIZATION

The end of each seat row or the front of the bleacher offers a spot for your school's logo, mascot, or spirit message. These durable graphic logos are full-color and customizable.

Choose from 15 standard interior colors for our CourtSide™ seat modules, or opt for custom color matching to turn up the school spirit.

**One minute – one person.** We engineered MAXAM 1™ Portable Bleachers to be operated by a single person. Just extend each of the traction arms, tip the unit, give it a gentle push to lock it down, and it is ready to go. Gas struts provide a controlled descent and lift assistance to ensure easy operation. No more waiting for a crew or scheduling extra labor – just keep saving labor time and cost for the entire life of your seats.

**One answer – anywhere.** MAXAM 1™ Portable Bleachers fit in just about anywhere – schools, colleges, fitness clubs, retail & corporate training areas, recreation facilities, community centers, sports fields and playgrounds. Handling larger groups is easy – simply connect multiple units together. You can even use it outdoors temporarily in protected areas\*. Get creative, and think outside the gym!
